

The campers use the standard configuration + optional configuration method for selecting options

Size:	3.3m*1.85m*1.6m (Before pop-up) 3.3m*1.85m*2.1m (after pop-up)
Weight:	500 kg (1102lbs) + (The weight will vary depending on the configuration)
Standard configuration:	
Body:	The outer layer uses fiberglass (High strength, aesthetic, easy maintenance) + The middle layer adopts a high-density flame-retardant layer. (Heat preservation) + The inner layer uses thermosplastic board (environmentally friendly, lightweight)
Colour:	Black, white or grey
Internal framework:	Aluminum-magnesium alloy
Door:	Single-layer door (with an outward-opening window) or double-layer door
Furniture:	Lightweight and Eco-friendly material
Mattress:	The mattress and cushions are made of high density foam.
Circuit configuration :	100amp AGM battery, 130W solar panel+MPPT controller, RV-specific switch panel, USB charging port*2, 360W cigarette lighter sockets*2, RV lamp, silent ventilation fan, 3000W inverter (including the RV power inlet), DC to DC Charger (including 16mm ² copper wire、 battery isolator、 fuse)
Diesel heater	High-altitude model, including an aluminum alloy fuel tank
Top ventilation fan	Two-way airflow with lights
Square sink	Including 50L water + silent water pump
Electric water heater	1500W
Outdoor shower system	Outdoor shower head, cold and hot water valve
The connecting method between the vehicle and the camper:	The fixing method varies depending on the different vehicle models, all accessories are provided by us.
Legs for camper installation*4	Assembly and disassembly can be completed by 1-2 people
Pop-top mechanism	4 stainless steel hydraulic rods, manual raising and lowering
Price:	\$22,600

Optional configuration:	
Solar panel	Including MPPT controller (130W each panel) \$350
Lithium battery	400amp 12V (4.6kWh) \$2,120 480amp 12V (6.1kWh) \$2,550 600amp 12V (7.7kWh) \$3,250
Air conditioner	Split-type air condition (12V) \$1,750
Awning	Extendable to 2 m with a length of 2.5 m (aluminum alloy hand crank), equipped with an outdoor light \$1,150
270° awning	\$2,050
Quick-release hook rail	Used for mounting recovery boards, shovels etc \$150
Pull-out gas stove	Including stove head, gas cylinder mounting bracket (Gas cylinder not included) \$1,050
Indoor shower system	\$750
50L freezer	\$300
